

# Newsletter-January'22

AYESHA ALI ACADEMY

## Greeting!

Usually a new year marks the time to break old habits , make resolutions and adhere to newer routines. This year however, with all its potential unpredictability, has us wishing for the old, for the familiar, for the tried and tested routines, for the overwhelming newness to plateau and finally pass. This is because, more than novelty, we need stability to function.

This applies more so to children who are already experiencing the precarious growth period of formative behavior & cognitive development . Thus the need for reopening of schools is an urgent one. Each day the nostalgia of our children attending school, frolicking around carefree , learning in their classrooms renders us helpless against the prevailing circumstances where they are away from their teachers and friends, trying to learn through screens. Hence bold and brave steps need to be taken from all quarters to get our children back into schools.

This month , wherein a new wave peaked, has been challenging for all of us. Fresh lockdowns , newer guidelines and the priority of saving human lives over education made it far from ideal to conduct optimal academic transactions.

However with a lot shifting on a daily & weekly basis , it can be imperceptible to track whether any meaningful progress was made .This is why it gives us immense pleasure to update you with the January'2022 newsletter.

# ACADEMIC MILESTONES:

- **Successful completion of 2021 session:-** We concluded the previous session by conducting the End Term Examination physically on campus with almost 100% student turnout. You all played a pivotal role by sending your wards informed and abiding by all SOPs.
- **Commencement of New session:** We started the new session on 16 December 2021. We started offline and hoped to continue. Due to surge in Covid-19 cases and keeping in view the severity of the third wave, we had to follow Govt Orders. We aim to resume offline school work at the earliest possible.
- **Disbursement of Frozen syllabus for winter:** Softcopies of winter syllabus were shared with you through WhatsApp groups and uploaded on the school website.
- **Confirmation calls to parents:** To ensure no child is left behind, our HRTs confirmed whether every child in their respective class is on track with academics and is taking classes from the Academy or by private tuitions.
- **Disbursement of Phase-I Study assignment:** The novel step this session will be archiving and digital availability of all study material for our children. The assignment for phase 1 is available on the website with more to be uploaded soon. We are actively trying to perfect the process .
- **Notebook maintenance:-** It will be our extreme commitment to make your wards reliable and dutiful to maintain their subject notebooks. While we leave no stone unturned to encourage and motivate your wards to make reference notes, you as a parent, need to follow up & check whether your ward is making proper notes into his/her notebooks by putting your initial on the last page of the lesson.
- **Assessment Scheme:-** We are maintaining a record of all written and oral tests of your ward to help us better assess the areas that need improvement. Identifying the pace and prowess of each child to better cater to their needs will be our guiding principle.

# EXTRACURRICULAR EVENTS:

**Observance Of Plantation Drive:-** On 24 January, the District Forest department organized a plantation drive in AAA .This was in line with our philosophy of keeping the planet breathing healthy for our children.

**Conduction of virtual Quiz competition:** an online quiz competition was organized on 26th January, the first of many more to come.

**Essay Competition:-**CBSE has undertaken the observance of scrutinizing the imagination of students by allowing them to write an essay about My India@100 years. Hereof, we can shortlist the creative writers who will be given the opportunity to compete on regional level and then national level .

**Section-Wise interaction with parents:-** The versatile management of AAA has initiated the interaction session with parents in order to seek feedback, grievances or valuable suggestions from them, so that everything could be streamlined. The interaction session started on 25 January and roster has been shared with you.

# PLANS AHEAD:

1. *Getting children* back into the school is our prime priority. We aim to resume physical classes for higher grades immediately and for all grades subsequently. *{keeping in view but working around the prevailing directives}*
2. *Video Lessons & Presentations*: Our staff is putting in all efforts to prepare engaging audio-video summary of their topics that will be shared with the children and made accessible digitally as well.
3. *Assignments and Worksheets*: In addition to the exercises at the end of each chapter, we will test and challenge the child to learn through worksheets sourced from reputed publications.
4. *Literary Magazine* : We are set to redraft the school magazine and launch the very first edition under a new name. Designated committee members will collect all creative entries from children for compilation.
5. *The Parent-Teacher Admin meetings* will continue as scheduled into the next month.
