Newsletter September 2023

AAA thrilled to share the remarkable achievements and unforgettable experiences from Summer Camp Phase II & III for boys & girls from grades 6th to 11th to Pahalgam & Aru Valley. This camp has truly been an exceptional success, and it's all thanks to the dedication and boundless enthusiasm displayed by our wonderful students.

It gives us a source of pride to share with you this praiseworthy message that our kids won 3rd Position at National Level Independence Day Kid Contest 2023, namely, Esha Malik and Talat Naseer Bhat. Certificate of Appreciation won by Adeena Asif and Milat Ul Islam in the contest of Singing and Dancing.

The English department, in collaboration with the CBSE team, hosted a reading challenge competition in the AAA auditorium. The competition was divided into two stages. Students in grades 8, 9, and 10 participated in Phase I, while students in grades 6 and 7 participated in Phase II. This was a courageous initiative through which students' comprehension and creativity were examined with a positive emphasis.

Congratulations to the under-14 boys for their remarkable victory at the inter-zone district level football tournament, representing AAA and Zone Kulgam! 🏆
Samar Nazir scored 2 goals, Zeeshan 2 goals, Danish 1 goal, and Huvaaid 1 goal. All the players showed their talent and played nicely. Their dedication and sportsmanship made us proud. Keep up the great work!

Workshop on India's Constitution

It was an enthralling experience for Ayesha Ali Academy students competing against Shemford Futuristic School Wanpoh. The workshop was organised by the Ayesha Ali Academy's Department of Social Sciences. Ayesha Ali Academy won the quiz competition, while AAA and Shemford tied for first place in the speech competition, with Shemford taking second and third place.

Sharing Happy moments with you!
AAA awarded by NEESF-NEES today at SKICC, Srinagar.

Ayesha Ali Academy organized historical tour to Marthand Temple at Mattan in Anantnag to demonstrate historical legacy of the Ancient Kashmir to our sprouting buds. The Martand Sun Temple is an eighth century (CE) Hindu temple attributed to Lalitaditya Muktapida of the Karkota dynasty. The temple is located near the city of Anantnag in the Kashmir Valley of Jammu and Kashmir (union territory), India. It was dedicated to Surya, the chief solar deity in Hinduism.

Remembering The Prophet Muhammad

صَلَّى اللهُ عَلَيْهِ وَسَلَّمَ

اللَّهُمَّ صَلِّ عَلَى مُحَمَّدٍ وَعَلَى آلِ مُحَمَّدٍ كَمَا صَلَّيْتَ عَلَى إِبْرَاهِيمَ
وَعَلَى آلِ إِبْرَاهِيمَ إِنَّكَ حَمِيدٌ مَجِيدٌ. اللَّهُمَّ بَارِكْ عَلَى مُحَمَّدٍ وَعَلَى آلِ
مُحَمَّدٍ كَمَا بَارَكْتَ عَلَى إِبْرَاهِيمَ وَعَلَى آلِ إِبْرَاهِيمَ إِنَّكَ حَمِيدٌ مَجِيدٌ

AAA - POLICE LINES

We had the privilege of visiting the district police line, where we had a wonderful interaction with

Respected DySP Rajendre Singh.

Our main objective was to familiarize our children with the valuable role that community workers, such as the police, play in our society. I am delighted to share that our visit was met with a warm and gracious welcome from the children.

Successfully conducted a Quiz of Grade 9th. In this competition, four different teams ROSE, LILY, SUNFLOWER & DAFFODIL with five participants in each team give tough battle to each other. Rules and regulations of the quiz were explained at the beginning. It was an interesting four-round competition, including objective questions with options round, buzzer round, questions with none options and rapid-fire round which engaged the students for one hour.

The students showcased their brilliance by rapidly answering the questions. Though some of the questions were very tricky, the teams tried to answer them with confidence. Although the teams participated actively, the team that scored the most was LILY.

TEACHER'S CORNER

As a math teacher, I wanted to share with you the importance of fostering a positive attitude towards mathematics in your child's education. Math is not just about numbers and formulas; it's a crucial life skill that helps with problem-solving and critical thinking.

Encouraging your child to practice math regularly, both in and outside of school, will greatly benefit their overall academic growth. Engaging in fun math games and activities at home can make the learning process enjoyable and interactive.

Additionally, please remember that it's okay for your child to struggle with math sometimes. Mistakes are a natural part of the learning process, and they provide valuable opportunities for growth. Your support and encouragement during these moments will make a significant difference in their confidence and progress.

How can we remove Mathematics phobias among kids:

Removing math phobias among kids requires a patient and supportive approach. Here are some strategies to help: **Build a Positive Attitude:** Encourage a positive attitude towards math by highlighting its real-world applications and the importance of problem-solving skills.

Make Math Fun: Use games, puzzles, and interactive activities to make math enjoyable. There are many educational apps and online resources designed to make math engaging for kids. **Relate Math to Everyday Life:** Show kids how math is used in everyday situations, like cooking, shopping, or building. This helps them see the practical relevance of math concepts.

Provide Support: Offer guidance and support when they encounter challenges. Be patient and avoid showing frustration if they struggle with math problems.

Break It Down: Divide complex math problems into smaller, more manageable steps. This can reduce anxiety and make problem-solving less daunting.

Encourage Questions: Create an environment where kids feel comfortable asking questions and seeking help when needed. **Use Visual Aids:** Utilize visual aids, diagrams, and illustrations to help explain mathematical concepts visually, making them easier to grasp.

Personalize Learning: Adapt teaching methods to match a child's learning style and pace. Some kids may benefit from hands-on activities, while others may prefer written explanations. **Set Realistic Goals:** Set achievable math goals for kids and celebrate their progress, no matter how small. This boosts their confidence and motivation.

Consider Professional Help: If math phobia persists and significantly affects a child's academic performance, consider seeking assistance from a math tutor or educational therapist. Remember, the goal is to create a positive and supportive math learning environment that helps kids overcome their fear and anxiety about math.

Mr. Sayeed Bhat, Mathematics Department

Food For Thought

whenever there is a showdown between truth and falsehood the latter always bites the dust. Despite the numerical imbalance the forces of truth have always routed the legions of lie.

Mr. G N Nayyir
Academic Advisor
Ayesha Ali Academy

Future Plans

1. PA 2 Examinations
2. Welcoming new Principal
3. Seerat Conference
4. Sports Day
5. Preparation for new admission
6. Delhi Public School Conference

With best wishes from
